

MCL Technologies and Psion Teklogix Partner to Provide MCL-Collection for Psion Teklogix Mobile Computers

MCL-Collection High-Productivity Software Now Available for Psion Teklogix Terminals

Mississauga, Ontario, CANADA and Waterloo, BELGIUM, April 5, 2007 – Psion Teklogix (LSE: PON), a global provider of solutions for mobile computing, wireless data collection, imaging and RFID, and MCL Technologies today announced the release of MCL-Collection for Psion Teklogix' WORKABOUT PRO and 7535 mobile computers.

Psion Teklogix is the latest mobile computer manufacturer to OEM MCL-Collection.

“We are pleased to be partnering with Psion Teklogix,” said Jean-François Jacques, Managing Director, MCL Technologies. “As a provider of multi-manufacturer, cross-platform software for mobile computing, the addition of support for Psion Teklogix terminals is a natural extension to our product line.”

MCL-Collection is an intuitive, development and deployment environment. Its high-productivity environment allows organizations to create multimodal, data capture applications that mobilize workforces, improve workforce productivity and give organizations competitive advantages while minimizing the total cost of application ownership.

“MCL Technologies' core competency is in development tools for data capture, mobile workforce application development, deployment, and management,” said Rob Vandervecht, vice-president, marketing at Psion Teklogix. “We are very excited to be able to offer our customers its MCL-Collection. With its extensive benefits, MCL-Collection allows our customers to focus on functional business issues, and not on implementation issues.”

Designed for performance in a range of data collection needs, the rugged and durable WORKABOUT PRO is a flexible, programmable and expandable portable data collection terminal. Its expansion and connectivity options enable a high degree of customization to tailor the WORKABOUT PRO to specific applications.

The 7535 is a rugged PC handheld computer designed to perform in the harshest conditions in warehouse, manufacturing facility, yard, distribution centre, or port.

MCL-Collection for Psion Teklogix' mobile computers can be downloaded and operated in Demo Mode at www.mcl-collection.com.

About Psion Teklogix

Psion Teklogix is a global provider of mobile computing solutions which deliver real-time access to enterprise data at the point of activity to improve business efficiency and productivity for leading enterprises throughout the world. Solutions are built around a range of high-quality, innovative mobile computers designed for tough and demanding environments. Psion Teklogix has leading expertise in rugged hardware, integration, service and support and in new and emerging technologies including image capture and RFID. With over three decades of industry experience, Psion Teklogix has customers in more than 80 countries, and over 39 sales and support offices in 23 countries. The Psion Teklogix parent company, Psion PLC, is listed on

the London Stock Exchange (PON.L). For more information, visit www.pSIONteklogix.com.

About MCL Technologies

MCL Technologies is a recognized leader in delivering high-productivity software development tools for mobile workforce and barcode printing application development, deployment, and management. Its enterprise-ready, standards-based software suite, MCL-Collection, seamlessly integrates the latest technologies with mobile computer, multi-manufacturer, cross-platform compatibility. Through the integration of mobile computing, wireless infrastructures, barcode printing, and data capture technologies like barcode scanners, radio frequency identification, and voice recognition, MCL-Collection helps organizations deploy mission critical and on-demand multimodal applications to improve workforce productivity, reduce costs, and achieve competitive advantage. Organizations also benefit from MCL-Collection's forward migration paths to minimize total cost of application ownership. More information is available at <http://www.mcl-collection.com>.

MCL Technologies is a competence center of Zetes Industries (Euronext Brussels: ZTS)
